Administrator's Quarterly Report for the YDC Claims Administration and Settlement Fund

2024 Quarter Three

The New Hampshire Legislature established the YDC Claims Administration and Settlement Fund under NH RSA 21-M:11-a, for victims of sexual and other abuse at New Hampshire's youth detention center facilities in prior decades to provide an administration process as a trauma-informed, victim-centered alternative to litigation for the efficient and fair resolution of potential claims against the State of New Hampshire.

This Quarterly Report is provided by Administrator Broderick pursuant to his duty under the statute to provide information, in consultation with the Attorney General's Office, about claims filed and anticipated to be filed, as well as administrative costs paid and anticipated.

For information about claims, the statute requires reporting for the following data: the number and nature of claims made and settled, the amounts requested and paid in settlement to date, the claim amounts pending, an estimate of the likely amounts which will be approved and paid. Information about Claims is based on the Administrator's docket at the close of the reporting period.

For information about costs, the statute requires reporting for the following data: costs which have been paid from the Fund, and an estimate of future costs to be paid. Costs from the Fund include payments for resolved claims (including fees and costs of attorneys who represent claimants), costs for claims processing by the Claims Administrator ("CA"), and costs of the Attorney General's Office ("AGO") outside of the ordinary operational expenses of the Department of Justice. Information about CA costs for claims processing is provided by the Claims Administration. Other figures for information about costs are provided by the Department of Justice.

This Report provides information for claims and costs since claims processing began on January 1, 2023, through the end of 2024 Quarter Three on September 30, 2024 (with costs first incurred in late 2022). The format for reporting information about claims is structured to protect the privacy and anonymity of the claimants.
